As published in an Invitation for Bids, dated April 28, 2025, the U.S. District Court for the Northern District of Alabama (ALND) requests open market quotes to assist as a construction administration consultant for the first three months of a courthouse construction project in Birmingham, Alabama. This award will likely include monthly extensions beyond the initial term through substantial completion and to oversee punch list and warranty items that remain. Bidders must submit SEALED bids to the address above by noon on May 16, 2025.

The primary requirements are as follows:

- Requests for Information (RFI) Response:
  - Process questions from the General Contractor (GC) awarded the construction contract to provide clarification of the contract requirements.
- Submittal Reviews:
  - Process submittals, shop drawings, equipment lists, material samples, certifications, test data, schedules, warranties, similar materials, record documents, and as-built drawings submitted by the GC for approval.
  - Maintain a submittal log showing dates of receipt, approvals, and other actions taken.
  - Provide written action recommendations on all submittals and ensure ALND is updated regularly on submittal timelines, project progress, and issues that may impact workmanship or the substantial completion timeline.
  - Fire protection submittal reviews, inspection, and testing must be coordinated with the General Services Administration.
- As-Built Drawings
  - Provide ALND a final electronic copy of drawings reflecting as-built conditions within three (3) months of construction substantial completion.
- Site Visits and Punch List
  - Consultant must complete a total of three (3) site visits to observe construction and related activities performed by the GC; once during mobilization, once mid-way through construction completion, and once to assist in developing a punch list.
- Required Meetings:
  - Attend bi-weekly one-hour, remote progress meetings, as necessary.
- Perform other related duties, as required to accomplish the above.

Final Construction Documents set the framework and general scope of work for the underlying construction project for which the construction consultancy is needed. Due to the sensitivity of courthouse drawings and the Court's strict security standards, the Final Construction Documents are not included with this Request for Quotation. The Final Construction Documents will be provided to all potential bidders, upon request.

All bidders may request a site visit and will be accommodated.

### **General Quotation Submission Instructions:**

Mail your quote, including the Quote Sheet provided, for arrival no later than the date and time specified above. Late quotes will not be considered unless the Judiciary, in its own discretion, determines that considering a late quote is in the Judiciary's best interest and will not result in undue delay.

### **Additional Technical Quotation Submission Requirements:**

Team Leader. Bidders shall identify a Team Leader to be reasonably available throughout the period of performance to discuss ongoing construction and submittal concerns. The Bidder must identify in its submission the name of the Team Leader and the amount of state or federal government experience of that individual. Failure to provide this information may result in a quotation being determined technically unacceptable.

STANDARD FORM (SF) 330. Bidders shall provide a completed SF 330 with their Quote Sheet at the time of Bid. The SF 330 is required to demonstrate competence and qualifications of prospective contractors to perform the services at fair and reasonable prices. The SF 330 can be found at <https://www.gsa.gov/reference/forms/architectengineer-qualifications>, and failure to provide this information will result in a quotation being determined technically unacceptable.

### **Bid Evaluation:**

The U.S. District Court for the Northern District of Alabama intends to make an award based on the **lowest priced, technically acceptable** quote.

### **Technical Evaluation:**

Technical acceptability will include an assessment of each bidder's ability to meet the primary requirements listed above, additional information detailed in the Additional Technical Quotation Submission Requirements, and an evaluation by an architect-engineer evaluation board.

The architect-engineer evaluation board will evaluate each potential contractor based on the following criteria:

- 1) professional qualifications necessary for satisfactory performance;
- 2) specialized experience and technical competence, including prior government contract experience and familiarity with the General Services Administration;

- 3) capacity to accomplish the work in the required time;
- 4) past performance on contracts with the Judiciary, other governmental entities, and/or private industry; and
- 5) acceptability under other appropriate evaluation criteria.

**Price Evaluation:**

All labor, equipment, materials, disposal, travel, installation, and any additional, distinct costs should be itemized on the Quote Sheet. Add additional rows, as needed. Payment terms will be considered **Net 30** unless more favorable terms are offered. The Contracting Officer will evaluate itemized pricing for fairness and reasonableness.

The initial period of performance for this construction consultancy is June 16 through September 19, 2025, with the possibility of extension through construction completion.

The place of performance will be the **Hugo L. Black U.S. Courthouse, 1729 5<sup>th</sup> Avenue North, Birmingham, Alabama 35203.**
